Dear Friend:

As you know, there are seven days in a week. There are five working days and two days on the weekend. However, after working for five days in a supermarket, I feel very tired, and two days is not really enough to relax. But I have a fantastic idea! I think there should be only four weekdays, so that there can be a three-day weekend! This would give everyone more time to rest and spend time with family and friends. What do you think ?
